

Greenpower E4 - Ride On Floor Scrubber/Dryer

Motors: The machine uses separate motors for the brush (500W*2), suction (550W), and walking (850W) functions.

Durability: Features a side-open tank design for easy maintenance, maintenance-free brush motors, and steel gear drives for reliability.

Usability: Includes an automatic brush lifting system, low noise design, and a V-shape squeegee for powerful suction with no stains left behind.

Application: Suitable for various hard floor surfaces including epoxy, cement, marble, and concrete, in areas larger than 4000 square meters
